BARBAROWSKI FRITCHOVITZ.

Almost hidden beneath the snow,
Tossed by March winds to and fro,
The fragile huts of Ping Yang stand
Out in the Hermit Kingdom land.
And to this quiet little glen
There came a troop of Russian men;
The knee-deep snow they waded through
And having nothing else to do,
Into a thousand threads they tore
Japanese banners by the score.
But one old lady stopped the men
(Her age was just three-score and ten.)
And with clenched fists she gave them fits—
"Twas Barbarowski Fritchovitiz."
She took a flag torn by the men
And quickly tacked it up again
To show that she was loyal yet,
To old Japan—lest they forget.
This angered Captain Barbersitch,
And in a high raucous pitch,
"Halt! Aim! Fire!" he told his men.
"Halt! Fudge! Lobsters!" screamed Barb just then.

A loud report! The flag's in bits!
But Barbarowski Fritchovitiz,
She grasps it up and takes a stand
Up at her window, flag in hand.
"Shoot, if you must, me knotty-top
But dissay fudge 'll never drop."
The Captain felt like thirty yen
And started on his march again.
Saying, "Whoski touches oneski gray hair
On thatski red head dieski like a bear."

And as the Russians left the town
Barbara stood with head bowed down
And mumbled: "Meow yoni bleens,"
Which, translated, simply means:
"Had I the whiskers of that troop,
I'd corner the market in birdnest soup."

—F. P. Pitzer.

"There Isn't One Really Good Printer in Five Hundred."

Printers' Ink—the leading journal on
publicity of all kinds—has the following
to say: "There are thousands of printers
in this country, good, indifferent, and a
lot of bad ones. There isn't one really
good printer in five hundred. Intelligent
advertisers are willing to pay for good
printing, no matter where it comes
from."
Printers' Ink knows what it is talking
about. Poor printing is a bad investment
—it's worse than a blank. A business
man's stationery or booklet is like a
traveling man—if it's neat, well-dressed
and to the point, the first impression is
good and your chances of doing business
on the strength of it are good.
We realize this. We keep abreast of
the times. We know what good printing
is and produce it. We are pretty careful
not to let a bum job get out of our presses.
No press in the country can better our
printing and we want you to know it.

"MUCH RAIN"

At Least There Were Several Down-
pours Here Yesterday

Surely, after the several downpours of yester-
day afternoon and evening, there is not
much water left in the regions above. The
rainfall in the city was 2.3.

The display of lightning was about the most
gorgeous that has accompanied the storms seen
here in years.

No doubt a great deal of damage was done
in the county to growing crops, washing the
ground, &c.

The stone work now in progress at the C.
and O. culvert at Kennedy's Creek was damaged
by the great flow of water.

One of the incidents reported during the
storm occurred at the home of George Chambers,
colored, who lives on the Fleming pike near the
old Ice Factory.

The water from the creek backed up into his
house to a depth of several feet, and he was
compelled to remove his family to a place of
safety.

All his chickens and five fine shoats were
washed away, the loss to him being quite heavy.

Gardens suffered severely, several just East
of the city, including that of Colonel Rees
Wallingford, being overflowed.

The telephone service fortunately escaped
being crippled by the storm, and the streetcar
service was tied up but a short time.

It would have been hard to have found a
blacker or more threatening night, however,
than that of the early part of the evening.

Many of the arc lights were out and with but
few lights from residences the city was en-
veloped in a cloud of darkness.

The passengers on the L. and N. train that
came in last night are loud in their praise of
Captain James Dunn and his crew for the ex-
treme care they exercised in running the train
over a track that was washed out in many
places by the almost unprecedented rain that
fell last night.

Captain Dunn piloted the train on foot for
several miles, having lost the headlight off the
engine, it being torn away in an entanglement
with dangling telegraph wires.

The passengers say that the rain that fell
here was only a shower compared to the down-
pour up the L. and N. Railroad.

For miles and miles on either side of the tracks
all one could see was nothing but a waste of
water standing several inches deep over the
farms.

The losses will be enormous in that section.

Mr. James Downey, who has been under treat-
ment at a Cincinnati hospital, is at home, greatly
improved in health.

A unique service will be held at the residence
of Elder James Moore, near Carrington's Rock,
Menifee county, next Sunday. It is the day of
the annual "foot-washing" by the Baptists, and
is said to be the fortieth annual service held at
Elder Moore's.

According to the new law which went into

Health will consist of three physicians, the
County Judge and County Attorney. One physi-
cian is to be appointed by the Fiscal Court, and
two by the State Board of Health.

science has been able to cure in all its stages, and
that is Catarrh. Hall's Catarrh Cure is the only
positive cure now known to the medical fraternity.
Catarrh being a constitutional disease, requires a
constitutional treatment. Hall's Catarrh Cure is
taken internally, acting directly upon the blood
and mucous surfaces of the system, thereby de-
stroying the foundation of the disease, and giving
the patient strength by building up the constitu-
tion and assisting nature in doing its work. The

FOR obvious reasons THE LEDGER has refrained from paying its respects to those who evidently "manipulated" the deal by which the proposed Government Building for this city was located, entirely beyond the business center. In fact, the only "business" house within nearly a block is a combined grocery and saloon, whose postal transactions amount to probably \$1.50 a year. Just why this site was selected, no one seems to know; and that a "blind street" less than a square long had to be created in order to make a "corner" lot of the property, is more singular still. In front of the proposed building is a row of old-time residences; on either side are residences; in the rear and to the right, another residence, and should the Building "take a tumble" backwards, it would fall into a fifty-foot hole which has been a standing nuisance for many years.

THE LEDGER would much like to see a Public Building in Maysville—in the business district where it would accommodate the people who pay the freight,—but it does not want a Public Building so located as to be a detriment to the public. It could scarcely believe that Mr. WINDOM was serious when he selected the site in question; indeed, it was difficult

to convince the business men of the city that the ground had been bought, even after the deed was filed, for no sane person thought it possible that the high Treasury officials, with the light before them as it was explained by Mr. KEHOE and others, would commit so grave a mistake.

If the Building is erected there, the Postoffice might almost as well be at Plumville; if the Revenue Office is moved to it, it will be about as convenient for the cigar and tobacco men and the distillers to send to Lexington for their stamps.

If this is the best that can be done in the way of location, Maysville will gladly forego a Public Building for the present—satisfied to wait till the city grows a few blocks further into the country.

But if the authorities are determined to proceed along the lines laid down, our citizens should protest before the actual work begins, or forever after shut their eyes and cuss with both hands.

Good morning! Have you been out to the Government Morgue?

If business men don't want to walk out into the suburbs for their mail and their revenue stamps, now is the time to enter a protest against the erection of the Public Building on the site selected by a man who lived nearly a whole day in Maysville—and who knew just what would suit our people!

GRADUAL DECLINE

This is the fate of sufferers from Kidney trouble, as the disease is so insidious that often people have serious Kidney trouble without knowing the real cause of their illness, as diseased kidneys allow the impurities to stay in the system and attack the other organs. This accounts for the many different symptoms of Kidney Disease.

You begin to feel better at once when taking

FOLEY'S KIDNEY CURE

as it stimulates the heart, increases the circulation and invigorates the whole system. It strengthens the urinary organs and gives you new life and vigor.

Chicago Business Man Cured

Foley & Co., Chicago, Gentlemen:—About a year ago my health began to fail, I lost flesh and never felt well. The doctor thought I had stomach and liver trouble, but I became convinced that my kidneys were the cause of my ill health and commenced taking FOLEY'S KIDNEY CURE. It increased my appetite and made me feel stronger, and the annoying symptoms disappeared. I am now sound and well.—J. K. Horn, 1354 Diversey Blvd., Chicago, June 11, 1902.

Cured His Wife

E. C. Watkins, sexton of the Methodist Church, Springfield, Pa., writes: "My wife has been very bad with kidney trouble and tried several doctors without benefit. After taking one bottle of FOLEY'S KIDNEY CURE was much better, and was completely cured after taking four bottles."

One Bottle Cured Him

A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but a one-dollar bottle of FOLEY'S KIDNEY CURE effected a permanent cure."

A CONTINUAL STRAIN

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. Sold by Henry W. Ray, Post-office Druggist.

The Douglas Hall passed down with a miscellaneous tow from Pomeroy.

The Oakland passed up yesterday from New Orleans with a tow of empties for Pittsburgh.

The Virginia arrived at Pittsburgh on the Fourth of July with 350 passengers. The patronage of people is fast returning to steamboats.

The J. B. Finley arrived at St. Louis Thursday with a tow of six barges of coal, thus completing for the Monongahela Consolidated Coal and Coke Company their contract with the St. Louis Gas Company and the World's Fair.

The Allegheny and its tributaries have emptied quite a quantity of water into the Ohio, and a nine-foot stage is looked for. The rivermen at Pittsburgh, as soon as it became apparent that a barge stage was to be reached, began to hire crews and get the boats ready to go out. A fine fleet is in the harbor but it is not thought likely that all the coal on hand will be sent, as the rise does not promise to be of lengthy duration. The coal combine will probably send out at least 500,000 bushels of fuel while the independent companies will add to that amount considerably. In addition to getting the coal out, it seems likely that many of the towboats which have been tied up along the Ohio will be able to get to Pittsburgh, among them the Sprague, Defender, Williams, Raymond Horner and Boaz. It is just possible that if the rain continues at the headwaters of the Allegheny as it has for the past few days a coalboat stage will be reached and all the coal in the harbor will be sent out.
